

A desk chair that turns heads. **Ergonomically**, and within budget.

Introducing Campos.™ An intertwining of smart aesthetics, subtly integrated details and ergonomic advantages.

Intuitive controls you expect from expensive seating are now easily attainable, bringing a whole new perspective to seating. Choose from upholstery or three classic mesh colors for the seat back, then a black plastic or

polished aluminum base—customizing Campos per office, per desk. Easily adjusted with precision, Campos can be individualized for each person who relies on it to get through the day.

Campos K17C27: black mesh back, Lucia 5800 black seat, polished aluminum base; shown with Interworks® EQ system; Footprint® worksurfaces and storage.

A chair of solid **character.**

* Optional feature.

Campos K17C27: black mesh back, Lucia 5800 black seat, polished aluminum base; shown with Xsite® system; Footprint® worksurfaces and storage; Perks® accessories.

A chair that **feels** really good.

And **looks** even better.

Individualized Experience

Campos offers multiple adjustment options to suit the weight, size, and preferences of each user. Lumbar support, backrest tension, and height can all be dialed in for individual comfort. And an optional seat slider adjusts the seat support length to better fit users of all statures.

Synchronous Movement

The synchronous mechanism provides synchronized seat-to-back movement in a two-to-one ratio as you lean back, and it has a patented twist thread column for a greater range of height adjustment, providing optimum support for everyone.

Unmatched Support

The 3D woven mesh backrest is nearly opaque due to a tight weave that provides the stability of upholstery with maximum breathability. Pressure distribution in the mesh ensures constant and even support for the entire back.

4D T-Armrests

It doesn't get much more precise than armrest width, height and depth adjustments, plus pivot and soft arm pads. The adjustable height of the armrests takes the strain off of the neck muscles that accompanies long days of computer-intensive work.

Campos K17C27: black mesh back, Lucia 5800 black seat, polished aluminum base; shown with Traxx® and tiles; Footprint® worksurfaces and storage; Perks® accessories.

Look. Admire. And please **touch.**

“The sum total of the qualities of a product or product type are filtered and compressed into one identity and given a large measure of invulnerability.”

—REINER MOLL, MOLL DESIGN FOUNDER AND PRODUCT DESIGNER

Sustainability:

In our manufacturing processes, material choices and product designs, Kimball Office shows a strident commitment to sustainable goals. To that end, Campos may contribute to LEED® credits. Please refer to our Environmental Data Sheets, located on www.kimballoffice.com, for specific details. Campos meets all of the IAQ testing requirements for Indoor Advantage Gold Certification from SCS (Scientific Certification Systems).
